COURSES

AUTUMN TERM

Community Learning

We offer a wide range of free community courses for Salford residents aged 19 or over, held in a variety of venues throughout the city and allowing you to learn new skills in a venue close to home. Some courses are designed to help you develop key skills in areas such as I.T, maths and English; others provide a great introduction to possible future employment, training or volunteering opportunities, without the pressure of exams or tests.

If you are interested in booking onto one of the listed courses, please find contact details at the back of this booklet.
